KTM 950 / 990 Adventure	Plate for fixing the silencer	2	23/01/16
PRODUCT DESCRIPTION & TECHNICAL DATA			

DESCRIPTION

This plate is required to secure each silencers to our side tanks.

TECHNICAL DATA

- The plate is built using 6063 aluminium alloy
- The thickness is 5mm
- The 4 holes on the base correspond with the threaded holes on our side tanks
- The brackets are reinforced on the back side to improve their strenght
- All the weldings are made using Inert Gas technology
- Supplied with mounting accessories
- Because of the several kind of mufflers on the market, the use of appropriate spacers between plate and muffler could be needed

All specifications are subject to change without prior notice
